

# Specialty Products for Agriculture *“beyond farming”*

**Phytohormone &**

**Enzyme-based**

**“MITE/INSECT/PEST  
AVERTER”**

# Introduction

- Pest/Mite/Insect attack has always been a nuisance for crops.
- Excessive use of pesticides/insecticides to curb mite/pest/insect attack is also not advisable due to its ill-effects on human health.
- Nearly all insecticides significantly alter eco-systems, are toxic to humans due to residual effects & get concentrated in the food chain.
- **Eco-friendly & safe, yet effective solution is necessary for Pest/Mite/Insect Control.**

**Introducing....**

NUVIA  
Technologies Inc.

**Go MITE**

**Phytohormones & enzyme-based**  
***“Unique CURATIVE mite/pest/insect averter”***
